Book Overview:

Humans, orcs, mages, elves, and dwarves all jostle for success and survival in the cramped quarters of Yenara, while understaffed Watch Wardens struggle to keep its citizens in line.

Enter Rem: new to Yenara and hungover in the city dungeons with no money for bail. When offered a position with the Watch to compensate for his crimes, Rem jumps at the chance.

His new partner is less eager. Torval, a dwarf who's handy with a maul and known for hitting first and asking

questions later, is highly unimpressed with the untrained and weaponless Rem.

But when Torval's former partner goes missing, the two must consort with the usual suspects -- drug dealing orcs, mind-controlling elves, uncooperative mages, and humans being typical humans -- to uncover the truth and catch a murderer loose in their fair city.
